Values at Stake

When the Methodist Federation for Social Action (MFSA) was founded in 1907, our forbearers, grounded in the economic context of their day and buoyed by the development of the Social Gospel, wrote what was to become the Methodist Social Creed. That first creed sets the values MFSA seeks for economic justice: the **rights of workers** to organize and seek arbitration; **worker protection** from workplace hazards; **abolition of child and sweatshop labor**; **meaningful work for all** and leisure for all; and a **living wage** in every industry.

Today, our Social Creed is lived out through our Social Princi-

ples, Book of Resolution, and the work of our General Boards and Agencies. To that extent, MFSA calls on General Conference to stand on the side of the poor, many of whom participate in the ministries of our congregations. **We remind General Conference of the privilege church leaders have to serve, as the cost of attending General, Jurisdictional, and Annual Conferences would be extraordinary for those who live on minimum, and even a living wage.**

Whether it is through a deeper understanding of rural, suburban, or urban poverty and the policies that exacerbate it; creat-

ing opportunities for worker's to be paid a living wage and negotiate ethical practices (including within our own congregations, church agencies, and caucus groups); or taking prophetic stances around global corporations, colonialism, and economic disenfranchisement, the people called Methodists have an historic and biblical obligation to care for the economic well-being of the people and communities where we find ourselves in ministry. **“How does God's love abide in anyone who has the world's goods and sees a sibling in need and yet refuses help? (1 John 3:17)”**
